PROJECTS

Employee Management System

April 1, 2022 - April 27, 2022

Mentor: Abhijeet Salvi | Team Size: 2

Key Skills: Core Java MySQL

This software application stores all the employee's information in a database. It is an application developed in Java GUI technology and database used is MySQL. It contains employee information like employee id, first name, surname, and age. It is an easy to use application and has a user-friendly interface. It is totally built at the administrative end which means that only the admin has access rights to change or modify any records. So this makes it safe and reliable application to use.
